

## CANTERBURY SCL HOME VISIT SERVICE GUIDELINES

Canterbury SCL offers a free to patient (CDHB funded) home visit service for the urban areas of Christchurch. The service extends beyond these urban boundaries to include the community of Rangiora, and other areas within a distance of 20 km from a Canterbury SCL collection centre.

Home visits can only be provided if the Eligibility Criteria (below) have been fully met.

### Eligibility Criteria:

- Patients must be housebound due to ill health or have impaired mobility; be unable to manage everyday tasks such as grocery and shopping errands; and have no support person to provide transport to a collection centre to be eligible for a home visit
- A request for a home visit must be made by the referring medical practitioner or nurse practitioner **not** the patient, their caregiver or relative
- Any changes to a home visit request must be communicated to us by the referring medical practitioner or nurse practitioner **not** the patient / caregiver or relative
- Bookings are restricted to patients living within a 20km radius of the nearest Canterbury SCL collection centre.
- Bookings will not be accepted for patients requiring restraint *unless* assistance is available

### Request a Home Visit:

- Requests for a home visit must be made by the referring medical practitioner or nurse practitioner **not** the patient, caregiver or relative
- The home visit request form must not be given to the patient to present
- Please make requests for a home visit at least 24 hours in advance of the requested booking day (Tuesday to Friday). Requests for a Monday **must** be made by 5pm on the preceding Thursday to allow for scheduling
- We require the Home Visit Coordinator to be notified (call **03 360 0842**) if there are any particular specifications with regard to the testing e.g. fasting or drug levels
- Fill in the Home Visit Request Form and email to [cscl.homevisit@sclabs.co.nz](mailto:cscl.homevisit@sclabs.co.nz)

### Urgent Requests:

- Please call our Home Visit Coordinator on **03 360 0842**
- **Note:** such requests must be *clinically* urgent

### Home Visit Hours of Service:

- Monday to Friday (excluding Public Holidays) 7.30am – 4.00pm
- **It is not possible to arrange a set time** for home visits. As home visit patients are, by definition, housebound this should not be a cause for concern.

### Home Visit Management:

- If the patient is not home when we call, Canterbury SCL reserves the right to request the patient to attend one of our collection rooms in the area
- Patients or caregivers should inform their referring medical practitioner or nurse practitioner as soon as possible if circumstances change that could affect their eligibility for a home visit e.g. patient admitted to hospital etc.
- The medical practitioner or nurse practitioner must contact Canterbury SCL as soon as possible should there be any changes to their patient's requirements
- Patients who are considered to no longer require home visits will be discharged from the service *after consultation* with the referrer

### Rest Homes:

- We **require** a rest home staff member to be available to assist with identification as many patients are unable to self-identify. The rest home visit **will not proceed** if the Phlebotomist is not able to positively identify the patient.

### Private Homes:

- Patients must ensure that all pets are restrained and that the mobile Phlebotomist can safely gain access to the patient's home
- A notification letter will be sent to the referrer if a patient is not home at the time of a visit, to confirm that home visits are still required for the patient
- The home visit will not proceed if the Phlebotomist is not able to positively identify the patient
- Patients who are unable to effectively communicate their identification, e.g. non-English speaking, must provide photo ID or have a support person present who can provide identification
