LABTESTS AUCKLAND

Your Code: PATRQ

Referred : 23/09/20

Collected: 23/09/20 08:00

Tested : 25/09/20

## SARS-CoV-2 (Novel Coronavirus) NAAT

Specimen site: Oropharyngeal/Nasopharyngeal Swab

SARS coronavirus 2 RNA: Not Detected

Comment: A negative nasopharyngeal or oropharyngeal swab doesn't completely exclude SARS-CoV-2 infection, particularly early or late in the course of illness. A repeat sample may be taken if the patient's symptoms deteriorate in the absence of another credible cause.

This test was performed by Labtests Auckland by nucleic acid amplification e.g. RT-PCR, TMA.

Validated by S. Smith, Scientist
