Name: **TEST, ADULT THL** **ADULT TEST**  
 DOB : 18/11/1977 42 Years Male  
 TEST Your Code:  
 TEST Referred : 23/09/20  
 NHI : Your Ref: Collected: 23/09/20 08:00  
 Lab Number : 20-9999640-I Tested : 25/09/20

**SARS-CoV-2 (Novel Coronavirus) NAAT**

Specimen site: Oropharyngeal/Nasopharyngeal Swab  
 SARS coronavirus 2 RNA: Not Detected

Comment: A negative nasopharyngeal or oropharyngeal swab doesn't completely exclude SARS-CoV-2 infection, particularly early or late in the course of illness. A repeat sample may be taken if the patient's symptoms deteriorate in the absence of another credible cause.

This test was performed by Labtests Auckland by nucleic acid amplification e.g. RT-PCR, TMA.

Validated by S. Smith, Scientist
