## **Patient Information**

## Low Vaginal Rectal Swab Collection – Self Collect Instructions

## Procedure

- Open swab package. Without removing the tube from the package, take off the white cap. Discard the cap.
- 2. Remove the swab from the package. Do not touch the soft tip or lay swab down.

- 3. Carefully insert swab into the inside opening of the vagina about 2 cm, and gently rotate swab for 10 to 30 seconds. Make sure swab touches the walls of the vagina so that moisture is absorbed by swab.
- 4. Remove swab from the vagina and insert 1 cm into the anus. Remove from the anus.
- 5. Without touching the swab onto any surface, insert it firmly into the tube.
- 6. Remove the tube from the package and label with your full name, date of birth and date and time of collection.
- 7. Return labelled tube and form in the provided biohazard bag to the laboratory or to one of our collection centres.
